

Brava® Barrier Cream

Gentle aid for dry or irritated skin

Free of
parabens,
perfume and
alcohol

Easy-to-use and long-lasting skin protection

Brava Barrier Cream has a moisturising effect that helps to protect against skin irritation issues from when skin comes into contact with output, or when cleaning or removing the appliance.

Brava Barrier Cream creates a long-lasting shield for the skin that ensures the baseplate adheres to the body. It also creates a long-lasting barrier that shields the skin from further damage from stoma output or adhesives.

Brava® Barrier Cream

No parabens, perfume or alcohol

Brava Barrier Cream is free of these potential irritants, making it gentle as well as effective.

Does not compromise tapes or adhesives

Brava Barrier Cream is designed to fit into your patients' appliance change routine. It allows tapes and adhesives to adhere so it does not need to be removed before applying the bag.

Effective moisturising

Because Brava Barrier Cream moisturises, it helps to manage sore, dry or irritated skin and prevent further damage.
